## NEO"' 240 Undercounter Ice Machines

undercounter ice machines are designed to provide ice right where you need it - within reach. Improvements in Performance, Intelligence and Convenience make your ice machine easy to own and less expensive to operate.
Performance - NEO produces more ice than ever before while using less water and energy. The storage bin provides industry leading capacity.
Intelligence - NEO provides feedback with full bin and service indicators. Delay function allows you to pause your machine for slow periods or days when you're closed.
Convenience - NEO offers a forward-sliding storage bin for easy access to refrigeration components without having to move the entire ice machine. Smooth, sealed food-zone with removable water trough, distribution tube, and damper door for faster cleaning AlphaSan added to key internal components.
Available Luminlce ${ }^{\text {TM }}$ Growth Inhibitor extends cleaning intervals by reducing yeast and bacteria growth keeping your ice machine cleaner, longer.
