359
Thick Shake Freezer
Features
Serve a wide variety of frozen desserts, like thick shakes and smoothies, with the assurance of safe temperatures for dairy products. Direct draw two flavors, or blend in flavorings for more variety.

Freezing Cylinder
Two, 7 quart (6.6 liter).

Refrigerated Mix Hopper
Two, 20 quart (18.9 liter). Refrigerated to maintain mix temperature below 41°F (5°C).

Indicator Lights
If the freezer is out of mix, the Mix Out light will come on, and the freezer shuts down automatically to prevent damage. Less than one pint (.5 liter) is left in the hopper when the mix out system is activated.

Solid State Controls
Thermistor control precisely monitors temperature and maintains consistent quality in product texture through solid state technology.

Thumb Grip Draw Handle
Draw handle makes dispensing of product easy by squeezing two levers together.

Fast Ejection
Beater design ejects product quickly to serve customers faster. Dispense a 16 fl. oz. (473 ml) serving in approximately 3 seconds.

Plastic Hopper Cover
Durable, plastic hopper cover maintains its shape through years of use.
Specifications

Electrical
One dedicated electrical connection is required. See the Electrical chart for the proper electrical requirements. Manufactured to be permanently connected. Consult your local Taylor distributor for cord & receptacle specifications as local codes allow.

Beater Motor
Two, 1.5 HP.

Refrigeration System
Two, approximately 9,500 BTU/hr. R404A. BTUs may vary depending on compressor used.

Air Cooled
Minimum Clearance: 3” (76 mm) around all sides. Minimum air clearances must be met to assure adequate air flow for optimum performance.

Options
- Bumper Kit
